LETTER FROM THE EXECUTIVE DIRECTOR

It gives me great pleasure to present to you the **CHILDLINE India Foundation (CIF) Annual Report 2011 - 2012**.

We have much to be proud of—CHILDLINE has crossed the 200 cities mark, having expanded to **204** locations as of March 31, 2012. More importantly, with **458** CHILDLINE partners, it has significantly enhanced the community of protection for a child in distress. Nearly **2.4 million** calls were received nationally from children and concerned adults.

The year saw one of CIF's long drawn advocacy initiatives with the telecom sector yield result. The DOT issued a notification changing the status of 1098 from Category 2 to Category 1 in the National Numbering Plan making it mandatory for every telecom service provider to open connectivity to

1098. In addition, DOT also changed the status of 1098 from local level to unrestricted access, making it possible to terminate calls on 1098 at any CCC location in the country.

To mark a milestone of 15 years, CIF organised the **CHILDLINE National Partnership Meet of Directors** in January 2012. The Meet focused on emerging and critical areas of Child Rights and Child Protection in India to widen the discourse and draw out a national agenda for the network. The session on Political Economy & Child Rights was particularly engaging as it enabled participants to view their work in the field using a wide angle lens, covering national and international political-economic imperatives and drivers that impact the situation and status of children.

The year also saw the release of CIF's publication: **'The Everywhere Child Project... A child friendly place in every space'**, a National Study on Child Protection Mechanisms by Dr. Syeda Hameed, Member Planning Commission. She commended the Study on its fresh approach and hoped to present it at various discussion forums to evolve a framework for strengthening Child Protection systems.

To study how systems impinge on children in meeting their needs, The Everywhere Child Project took on the concept of "spaces" to set up an inquiry on how child friendly these spaces are and how the child reports experiences within these spaces (school, the health system, police, public transport system etc). A major contribution of the study is the standards of services developed for each system using existing guidelines and adding to them. We hope this meaningful publication will be widely used by a variety of audiences such as policy makers, duty bearers, academicians, activists and social workers.

In conclusion, the achievements of 2010 - 11 give us reason for optimism, but not for complacency. We have to deepen our intervention even as we increase our reach. Some of the tasks ahead are to upgrade counseling skills, increase efficiency of response, increase grassroots outreach, develop stronger community vigilance, deepen our engagement with the allied systems, develop issue specific interventions to reach under served children such as political refugees, mentally challenged children, victims of riots, victims of disaster and victims of sexual abuse amongst others. Above all, we need to stay focused and sensitive to the needs of the child on the ground and tweak our services to match their needs.

I would like to place on record my thanks to the team at CIF and the CHILDLINE network for their tireless effort to protect children, sometimes in the most difficult circumstances, to the Governing Board for their continuous support, to our CHILDLINE Dosts whose contributions big and small push us to strive further and finally our gratitude to the Ministry of Women and Child Development for their belief in the CHILDLINE model of Public-Private Partnership and their continuing faith in our ability to deliver a quality service.

Kajol Menon

Executive Director, CHILDLINE India Foundation.

A PULSATING PARTNERSHIP

*The Ministry Of Women and Child Development,
Government Of India and CHILDLINE India Foundation*

We take this opportunity to acknowledge the unflinching support we have consistently received from the Ministry of Women and Child Development, Government of India. That we have been able to function efficiently and achieve what we set out to do, owes largely to their support.

They spurred us on; they extended help and cooperation and most importantly, believed in our ability to deliver. We thank them for instilling their faith in us.

"Children get cash through petty theft at night, another worrying offshoot of substance abuse," he added. Juvenile Justice mechanism enforced in Kashmir by CHILDLINE Srinagar

It has been more than 14 years since the Jammu and Kashmir Juvenile Justice Act 1997 came in to existence but voluntary organisations working in Kashmir on the issues of child rights have never used this significant legislation in any case while working with children. Surprisingly, the concerned government departments of Jammu and Kashmir were also unaware of the basic components/functions of the Juvenile Welfare Board (JWB) until CHILDLINE Srinagar approached the District administration while dealing with the case of a juvenile. CHILDLINE Srinagar started functioning to strengthen the existing Juvenile Justice system and to provide all possible support to neglected juveniles in Kashmir. Most people remain oblivious that Jammu and Kashmir is the only state in country which has a separate Juvenile Justice System "Jammu and Kashmir Juvenile Justice Act 1997". Significantly, for the first time in the history of Jammu and Kashmir, the J&K government, through its District Social Welfare Officer an ex-officio member secretary of Juvenile Welfare Board [JWB], passed an order for the restoration of a juvenile in his native state, West Bengal, with the help of CHILDLINE. It is important to know that the JWB is the only competent authority/statutory body in the state which can deal with cases of juveniles in need of care and protection under Section 4 of Jammu and Kashmir Juvenile Justice Act 1997 & Rule 3(a) of Jammu and Kashmir Juvenile Justice Rules 2007. It was indeed a historical achievement for CHILDLINE Srinagar which states the existence of Child Protection mechanisms in Kashmir.

SENSITIZATION WORKSHOPS WITH ALLIED PARTNERS

Our commitment and priority towards Child Protection is critical to the creation of a protective environment for our children. There is a dire need to ensure that Child Protection is understood and practiced by all who are stakeholders in ensuring the rights of a child. Catalyzing allied systems including the Police, Health Care Organizations, Education Institutions, Transport Undertakings, Telecom, Media, NGOs who have a large stake in Child Protection is vital to a more sensitive and proactive society.

The NICP (National Initiative for Child Protection) is one such need based initiative implemented at a country wide scale. These sensitization and awareness workshops are carried out in every CHILDLINE city with our allied systems, addressing children's issues with a rights based perspective. These workshops are conducted with support from NIPCCD (National Institute of Public Cooperation and Child Development).

CIF designed a curriculum that would be incorporated into various trainings undertaken at a local level. A series of dialogues on children's issues have been initiated through this platform. The following is a summation for 2011-12:

THE EVERYWHERE CHILD PROJECT - A CHILD FRIENDLY PLACE IN EVERY SPACE

A NATIONAL STUDY ON CHILD PROTECTION MECHANISMS

Programmes should come from bottom rather than from top down. The Planning Commission needs to recognize the individual segments of population that children represent. CHILDLINE is an organization working at the grassroots level and is able to bring those voices of the invisible segment of children to the government that go unheard. The partnership between CHILDLINE and the Government of India is amongst the best examples of an effective public-private partnership. The research that has been undertaken in the various spaces of the study by CHILDLINE- 'The Everywhere child project' will be analyzed and form a framework for the Planning Commission to evolve a methodology which makes the States accountable for implementation.

- Syeda Hameed, Member, Planning Commission speaking at the launch of CIF's national study

(L to R) Dr. Armaity Desai, Trustee, CHILDLINE India Foundation, Dr. Syeda Hameed, Planning Commission, Kajol Menon, Executive Director, CHILDLINE India Foundation at the launch ceremony of the study in New Delhi - The Everywhere Child Project - a child-friendly place in every space.

CHILDLINE India Foundation (CIF) released 'The Everywhere Child Project- A child friendly place in every space', a National Study on Child Protection Mechanisms on 4th January, 2012 at its National Partnership Meet of CHILDLINE Directors in New Delhi.

The launch programme began with Dr. Armaity Desai, Trustee, CIF, highlighting the need to see the 'child' as a rights-holder and equal to the adult counterpart. She expressed how the need of the hour is to protect and secure a child's childhood and that protection and safety of the child is the responsibility of each and everyone, not just of those directly charged with their protection. Introducing the Study, Dr. Desai stated that it recommended a new approach to addressing the issue of child protection viz that instead of merely looking at child protection issues in general as is now the case. The Study focuses on issues relating to Child protection specific to each space through which children traverse. This, she said, was a bold and new initiative taken to highlight the gross inadequacies faced by the child.

Continuing on from the overview of the Study given by Dr. Armaity Desai, Ms. Nicole Menezes, Deputy Director, CHILDLINE India Foundation presented key findings based on analysis of data collected from 11 states across the country. She mentioned that the Study focused on five spaces (Public Service Space (Education and Health space), Public Institutional Care Services, Statutory Bodies for Child Protection, Public Safety Space and Common Public Spaces) and that inputs for the Study were obtained from duty bearers, civil society members and children through interviews, focus group discussions and consultative meets. Further, she shared how a major contribution in the Study was the space-wise standards recommended, which were evolved through extensive consultations held with civil society groups and experts on the subject of Child Protection.

Dr. Syeda Hameed, Member Planning Commission, Government of India who released the publication, acknowledged the Study and the fresh approach to Child Protection and appreciated that the Study had taken into account the voices of children. She said she hoped to present this different approach to Child Protection in the Planning Commission discussion forums and evolve a framework from the Study for the Planning Commission to demand accountability from the States.

The launch ended with a dialogue on safe spaces for children which was paneled by Mr. Jose Bergua (Chief Child Protection, UNICEF, Delhi), Mr. Tom Thomas (CEO, PRAXIS Institute of Participatory Research), Ms. Nina Nayak (Chairperson, KSPCR), Dr. Aditi Mehta (Principal Secretary, Women and Child Development, Govt. of Rajasthan) and Dr. Tuk Tuk. NATIONAL DIRECTOR'S MEET

New Delhi, January, 2012

While the CHILDLINE network celebrates its 15 years of success, it needs to gear up to be in a position to intervene in a number of new and emerging Child Protection issues. Every year, CHILDLINE's network of Partner Directors congregate at a national meet. This meet aims to discuss and debate emerging Child Protection issues, draw out a contemporaneous national agenda and reflect on the year gone by.

CHILDLINE has, over the years, expanded its mandate from being an emergency service for street children, then moving on to an emergency service for children in distress, then a service for all children in need of care and protection - but the key principles that we base our functioning on are - Partnership, Listening to Children's Voices, Learn and Share, Lean Structures and High Impact.'

- Kajol Menon, Executive Director, CIF at the NDM in New Delhi, celebrating 15 years of CHILDLINE.

The Meet was inaugurated by Ms. Neela Gangadharan, Secretary, Ministry of Women and Child Development, Government of India. The other panelist included, Mr. Sudhir Kumar, Additional Secretary, MWCD and Ms. Preeti Madan, Joint Secretary, MWCD, Board Member, CIF.

The NDM 2012 was launched with a warm welcome by Dr. Armaity Desai, Trustee, CIF. She stated that both the CHILDLINE network and CIF are looking forward to working with Ms. Neela Gangadharan, who had just taken charge of the MWCD.

Dr. Dinesh Paul, Director NIPCCD, Co-host of the National Partnership Meet of CHILDLINE Directors spoke on the occasion. He acknowledged the large volume of work done by the CHILDLINE network and CIF. He shared information about the ICPS scheme stating that ICPS gives access to opportunities for Child Protection. He looked forward to CHILDLINE's role in Child Protection Advocacy. He also highlighted the lack of information for children in trouble, mechanisms to track missing/found children. Dr. Paul recognized the opportunity for NIPCCD to work with CHILDLINE partners and also offered the collaboration of all NIPCCD regional offices with CIF.

Further, Ms. Kajol Menon, Executive Director, CIF covered CHILDLINE's journey in the last 15 years, the beginning, the growth and the hurdles crossed. 'CHILDLINE covers almost a third of the nation. The opportunity it presents to be the voice of children and to advocate for Child Protection is immense. The partnership has grown to now include 443 partners across the country. CIF is proud to associate with such expert organizations working in the space of Child Protection. The key strength and uniqueness of the CHILDLINE service is its model of partnership,' she added. She ended her presentation with some very pertinent questions: How do we translate the action into work? Do we look at children in a holistic fashion as right holders? Do we stretch ourselves and push our limits for every child and how do we keep our spirit alive? What kind of CHILDLINE are we seeing in 2020? A seamless well coordinated Child Protection system? What are the certifications/benchmarks for Child Protection Services? What are the mechanisms, protocols for protection of children across borders? What are the Child Protection indicators embedded in all National and International development goals?

Plenary sessions

'Am I only to do rescue? Or am I in the business of prevention? And if I am in the business of prevention, what is it that I must try to prevent?... Not the child running away, or the child getting lost... but the reasons why that happens - and those reasons are not just personal, those reasons are also political. Those reasons are also cultural.'

- Razia Ismail, National Convener, India Alliance for Child Rights - Speaking at the Plenary Session (Political Economy and Child Rights), CHILDLINE NDM, January 2012.

A plenary session titled Political Economy and Child Rights was planned in order to educate and draw out an agenda for the CHILDLINE network. In Junabadla, Paschim Medinipur was created a Mantri Parishad amongst a children's group. Four ministers among the group were given designations of Chief Minister, Health Minister, Education Minister and Sports Minister who carried out their roles in helping other children based on their needs. Gorakhpur

In an attempt to address the trafficking of children from Nepal via Gorakhpur, CHLDLINE conducted a gathering with approximately 60 coolies working at the Gorakhpur Railway Station. The meeting aimed to build a close knit network of volunteers who would assist CHLDLINE in tracking suspicious passengers and bringing them to the notice of CHLDLINE. During the discussion it was learnt that most of the coolies were aware of agents that were involved in these activities. Many of them came forward and became informers for CHLDLINE only after being assured confidentiality. It was concluded that the coolies and CHLDLINE would have bimonthly meetings and more volunteers could be drawn in. This was a successful example of executing CHLDLINE's vision statement - making child protection everyone's business.

The team reached out to families, shop owners and the general public in order to encourage them to send their children to the evening club. Several people grew curious to know the role of CHLDLINE and the work done in the city of Indore. After conducting a series of outreach programmes, 20 children came forward and sought membership at the CHLDLINE Evening Club. The children come together at the CHLDLINE Centre Campus and watch movies, read comics, play games and spend a few hours each day having fun. THE VOICE OF INDIA'S CHILDREN

Child participation involves encouraging and enabling children to make their views known on the issues that affect them. Given the genesis of the CHILDLINE service, its identity continues to be linked to a deep - rooted vibrant relationship with children.

'Involvement, respect, best interest of the child, access to information, expression and empowerment' are some of the key aspects that come to mind when we think about what the concept of Child Participation means to CHILDLINE.

Similarly, being a 'facilitator, listening to children, acceptance and accountability' are some of the requirements that emerge while envisioning our role in the process of enabling children to meaningfully participate.

The conviction of CHILDLINE's belief that when children are heard and involved, systematic changes would impact their lives positively has grown even stronger over the decade of its service.

Tools of Child Participation within the realm of CHILDLINE:

1) OPEN HOUSE

CHILDLINE holds Children's Meets aiming at creating a formal space for children to raise their issues and concerns. These meets bring children and members of different allied systems on a common platform whereby the issues can be raised and addressed and advocacy for positive change in public service can be articulated.

CHILDLINE has put participation in practice through 'Open House' sessions.

It is a monthly feature at CHILDLINE, wherein children share their feedback on the CHILDLINE Service and other issues concerning their life situations, sharpening the focus on gaining a deeper understanding of the issues and concerns, with children, during the course of the year.

The Open House happens in different towns and cities across India according to the need of the hour and the convenience of the children. Child participation has been ingrained into the routine functioning of CHILDLINE at every level of interaction with our children.

2) CHILDREN'S CLUBS

A new feature at CHILDLINE is the creation of Children's Clubs within schools, communities and villages. It is a Child Participation tool, for the children by the children themselves.

Children volunteer as members of the CHILDLINE Club and appoint CHILDLINE Ambassadors from amongst them. This forum is where children are able to express the issues faced by their peer group in society. These Clubs are monitored by teachers, parents and CHILDLINE team members. The objectives of these groups are multifold:

- To address Child Rights and Protection within various spheres
- Create a network between children and CHILDLINE
- Promote leadership qualities among CHILDLINE Ambassadors
- Better Co-ordination between CHILDLINE Clubs and CHILDLINE for informing children's issues in society

ILLUSTRATED EXAMPLES FROM SOUTH INDIA:

1) CHLDLINE in Bihar organized 167 Makkala Gram Sabhas involving participation from 15000 children in the district. This initiative commenced in Karnataka back in 2007 based on a circular of the Department of Rural Development and Panchayat Raj with the aim of identifying child related issues through children, sensitizing them on laws and making them aware of their rights as children. This forum has helped address issues such as shortage of teachers in schools, unhygienic toilets, poor quality mid-day meals, etc.

2) Children from certain schools in Kerala shared issues relating to unhygienic toilets, lack of drinking water facilities and irrational punishment by the teachers. These issues were discussed openly at the Open House session and CHLDLINE intervened by approaching the school authorities.

3) CHLDLINE in association with District Administration, Education Department and National Rural Health Mission organized a massive campaign for formation of CHLDLINE Clubs and selection of CHLDLINE Ambassadors in Schools of Ernakulam District, Kochi. Close to 260 CHLDLINE Clubs have formed from 4 Educational Districts, thus, promoting Child Participation on a large scale.

4) With a large number of school drop outs, children subject to substance abuse and victims of Child Marriage in Tirunelveli, a Children's Club was formed to identify and re-enroll the children in schools. Additionally, PTA meetings were called upon to sensitize them about the issue.

HOW CHILDREN CALLED CHILDLINE 1098?

HOW CHILDREN CALLED CHILDLINE 1098?

RESPONDING TO CHILDREN IN DISTRESS

In India, CHILDLINE is a phone outreach based intervention model and the work begins when a call for help comes in. As soon as this happens, local CHILDLINE teams swing into action for direct intervention. Intervention covers a range of actions from rescuing children from abusive circumstances, providing immediate SOS attention, to registering a case at the police station, presenting a child to the Child Welfare Committee (CWC) in the city and developing the papers for onward action as directed by the CWC and so on.

Each case is unique in nature. Some take less than an hour to resolve whereas others take months of work. CHILDLINE's operational model involves the team activating a variety of linkages among the allied system institutions such as the Police, Municipality, Health care, Education and Transport Institutions along with the Judiciary, Child Care NGOs, Local, State and Central Governments. Very often, the team has to provide unique solutions that require a relevant interpretation of legislations such as the Juvenile Justice Act and others, and sensitise allied institutions on issues.

2011-12 was fraught with thousands of calls from worried parents, sensitive adults, community well wishers and the distraught children of India. The below mentioned interventions / cases are a mere drop in the ocean of the work done by CHILDLINE.

Child Marriage

MURSHIDABAD GIRLS STAND UP AGAINST AN EARLY MARRIAGE, FELICITATED BY HONORABLE PRESIDENT OF INDIA AT RASHTRAPATI BHAVAN

Tuktuki, Bithika and Adori aged 14, 16 and 17 years respectively took help from CHILDLINE and their friends to stop being married off at an early age. The courage asserted by the trio had a mammoth effect on their community, especially the young girls. More girls were inspired to choose their own path in life, educate themselves and follow their dreams. Opposing Child Marriage despite parental and societal pressure, with help from CHILDLINE, school teachers and their classmates, the girls of Murshidabad set an example for every little girl in India. Their parents too, began seeing the brighter side of their decision.

On hearing about the laudable courage shown by the 3 girls, the Honorable President of India, Smt. Pratibha Devisingh Patil invited the children to Rashtrapati Bhavan, Delhi. She congratulated them and bestowed upon them praises and prizes for saying 'No to Child Marriage'. The girls were urged to narrate their stories and propagate the idea of eradicating social evils like Child Marriage.

'It is not only necessary to send girls to school but it is also necessary to give them social education to make them aware of the social evils which they must resist', said Honorable President of India, Smt. Pratibha Devisingh Patil.

Child Labour

23 CHILDREN RESCUED FROM FRUIT JUICE CENTRES IN INDORE

The distressing story of these children began in their home town, Behraich. Luring them with false hope of a better life and larger sums of money, groups of children were brought to Indore to work at Juice Centres across the city. Their naive parents were unaware of the plight that awaited the innocent children in the city of Indore. With 15 hours of work a day, these children were not provided any wages and were housed in dingy homes. In a response to a tip off received by CHILDLINE, the team organised a joint rescue operation of 23 children trafficked from Behraich, Uttar Pradesh. This multiparty rescue involved CHILDLINE team members, officials of the Women and Child Development Department, the Police department and the Labour department.

Out of the 23 children rescued, 11 children were brought to the Special Juvenile Police Unit, and 12 children were taken to

the CHILDLINE centre. An FIR was filed against the employers. The Child Welfare Committee (CWC) ordered further inquiry and directed the children to temporary shelter.

In a classic example of CHILDLINE's well-connected network, CHILDLINE centres in Indore and Lucknow extended local support to the children and sent them back home.

Domestic Child Labour

A YOUNG GIRL FROM THE ADIVASI COMMUNITY TAKEN AWAY FROM HER PLIGHT

Purnima, a 13 year old girl from the Adivasi community of Merrapani, Assam could not remember the names of her family members as she had been sent to work at the Khutovi family residence in Dimapur at a very young age.

The owners of the household often beat her up which led Purnima to run away. The Police found Purnima in the area of Sangtamtila and immediately informed CHILDLINE. The child was then handed over to CHILDLINE. The child was counseled and sent to the Women Short Stay Home (WSSH), Prodigal's Home for temporary shelter.

The child was then produced before the Child Welfare Committee (CWC), but as her parents couldn't be traced, Purnima was sent back to the shelter home on many occasions. After repeated attempts, her family was traced and her father was brought to the CWC. Purnima's father had sent her to work at the home of the Khutovi's as they needed additional income.

Purnima expressed a desire to go back home. She was handed over to her father with a legal warning of taking serious action if Purnima was made to work. Her former owners were made to pay a compensation for making her work.

After repeated consultations with doctors, Jhoila's parents knew he needed urgent medical treatment. Hailing from a poor family, Jhoila's parents desperately tried putting together paltry sums of money to relieve Jhoila of his pain. After repeated attempts to collect money for Jhoila's surgery, through the State Medical Fund and the Rashtriya Swasthaya Bima Yojna (RSBY) smart card, Jhoila's parents approached CHILDLINE for assistance.

CHILDLINE in-turn approached the Iffco Tokyo General Insurance Co.Ltd to help Jhoila's father make use of the RSBY smart card and avail monetary benefits for his son's surgery. Jhoila was taken to Berhampur for his surgery. The CHILDLINE team members stayed by his side during and after his surgery. All logistic and additional expenses were incurred by CHILDLINE. Child Sexual Abuse

10 YEAR OLD GIRL ABUSED BY HER NEIGHBOUR

Pinky, a 10 year old girl residing in Rourkela came from a poor family. Although her parents were unable to provide 2 meals a day, they managed to send Pinky to school. One day, while Pinky's parents were out at work and she was playing outside her home, her neighbour, a 32 year old man approached her and offered her a chocolate. Taking undue advantage of an empty home, the neighbour took Pinky into her home and raped her.

This man had a daughter the same age as Pinky and a family living in the next door home. As Pinky's family was well acquainted with their neighbour, he threatened Pinky to stay quiet about what he had done. This act of abuse was witnessed by another boy who lived in the vicinity.

Pinky was in severe trauma and pain by the cruel act performed by her neighbour. She narrated the whole incident to her mother. Seething with anger, Pinky's mother approached her neighbour who denied any such incident. Noticing the brawl between the neighbours, the nearby residents gathered to witness the commotion. The neighbour, frightened by the repercussions of his act, decided to flee.

CHILDLINE took immediate action when they received a call from Pinky's aunt. An FIR was filed against the neighbour at the Kansbahal Police Station. The neighbour was found and arrested. CHILDLINE played a significant role in ensuring that Pinky got justice and the culprit received punishment for his dastardly act. Today, Pinky is undergoing medical treatment.

Mentally Challenged

CHILDLINE TAKES ON AN ABANDONED CHILD

A lonely, abandoned, destitute and mentally challenged woman gave birth to a child on a street in Rourkela. No one came forward to help them. They both lay on the street helpless and in need of serious medical treatment. To add insult to injury, the child was still attached to the mother with the umbilical cord. The mother remained incapable of looking after a child or seeking any help due to her mental state.

A shopkeeper from a nearby market called CHILDLINE. The team immediately reached the place and took the mother and child to the Rourkela General Hospital. Later that day, the mother ran away from hospital leaving her child to the care of the hospital. The child's health grew worse and he was put on a ventilator.

The CHILDLINE team members didn't leave his side until he got better. All expenses were borne by CHILDLINE. On the order of the Child Welfare Committee, the child was put up for adoption at the Missionaries of Charity.

As she loudly narrated the nursery rhymes she had learnt, a furious landlord rushed up to her home. He yelled at her, twisted her ears, lifted her from the ground and harshly hit her. The landlord had been known for terrorizing his tenants, yelling at them for making any noise, beating up men etc. Sarah was traumatized after the incident. She was physically and emotionally battered. She has a neck injury, a swollen ear, fever and post-traumatic stress that gave her trouble sleeping. She lost 5 kgs and had to be admitted to hospital.

It was found that these children were portrayed as orphans and daughters of Christian martyrs of Nepal on the website of Dr. Jobs Mission with an overall strength of more than 500 girl children from various places in India and abroad, all less than 18 years of age.

The parents of the missing children approached Esther Benjamins Memorial Foundation (EBMF), Nepal to rescue their children. EBMF which was authorized by the Ministry of Foreign Affairs, Govt. of Nepal and Embassy of Nepal at New Delhi approached CHILDLINE India Foundation to support them to rescue the trafficked children.

CHILDLINE CONTACT CENTRE (CCC)

The voice of every distressed child reaches us through the CCC. This is the central body to which all 1098 calls are directed. The modern-day technology of a Call Centre was adopted by CHILDLINE in 2008 to provide a more systematic approach to receiving and documenting calls.

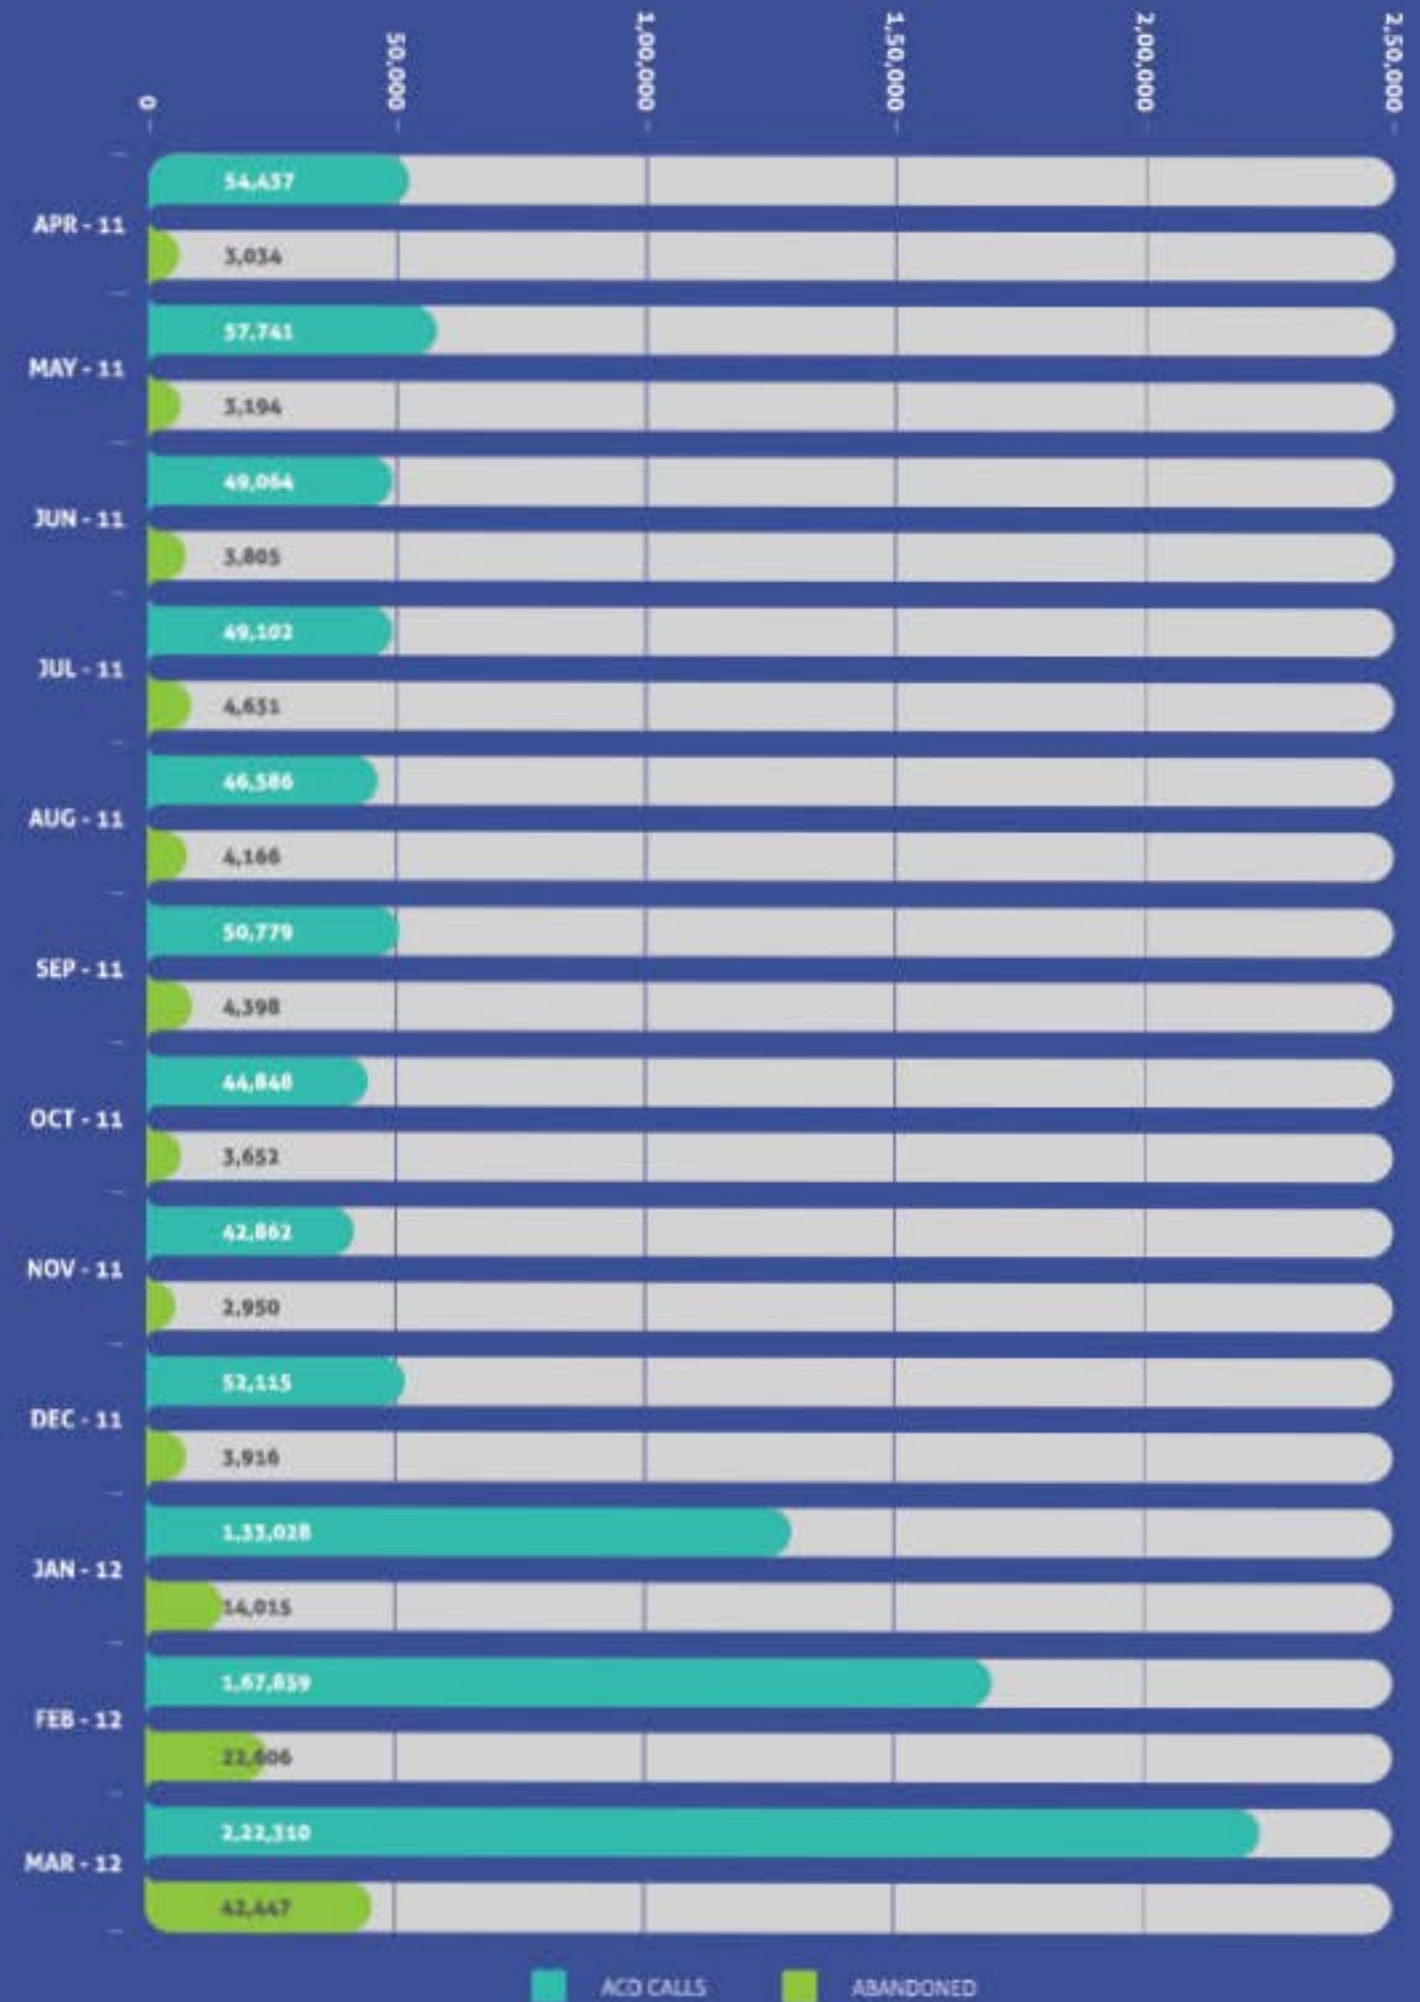

DID YOU KNOW?

- The CCC houses calls from the Northern and Western region of India, with a total of 85 cities / districts
- The CCC is functional from the Tata Consultancy Services (TCS) facility in Vikhroli, Mumbai. The process to set up a CCC at Delhi, Kolkata and Chennai in order to service the respective regions has commenced
- The CCC has serviced 1.60 lakh calls /month from all cities under its purview during the review period
- The highest number of calls are received in the time slot of 6:00 pm to 10:00 pm each day
- There are 29 trained call attendants
- During the peak hours average per day there are around 150 to 170 calls per hour and during non peak hours 15 calls per hour
- Some of the call trends are indicated as below

YEARLY TREND : CALLS MADE AND ABANDONED PERCENTAGE FOR THE YEAR 2011 - 2012

YEARLY TREND : ANSWERED CALLS V/S ABANDONED CALLS FOR THE YEAR 2011 - 2012

MTD TREND : AV SPEED OF ANSWER AND SERVICE LEVELS FOR THE YEAR 2011 - 2012

By the end of 2013, all the 4 regions of India shall be working within the framework of a CCC.

TELECOM:

During the year, one of CIF's long drawn advocacy initiatives with the telecom sector yielded result. The DOT issued a notification changing the status of 1098 from Category 2 to Category 1 in the National Numbering Plan. This means it is now mandatory for every telecom service provider to open connectivity to 1098, at the behest of CIF.

In addition, the DOT also changed the status of 1098 from local level to unrestricted access. This means that the calls to 1098 can be terminated at specific CCC locations in any part of the country. These developments got implemented by December 2011 and resulted in every phone service provider being connected to 1098. BSNL and MTNL implemented the 1098 service as a Category 1 service on Intelligent Network (IN).

■ Vodafone

Vodafone employees volunteered to spend the day with young girls residing in nearby slums. These girls are from low economic groups, where their living conditions are not conducive for their development. They come each day to the shelter home for the purpose of acquiring vocational and study lessons. The employees engaged the children with their innovative ideas ranging from dancing, drama and games. The girls' exuberant confidence and talent brought a smile on the faces of the volunteers. What began as a casual gathering of volunteers and young girls ended in a fun-filled experience for both; memories of which will last for years to come.

PUBLICATIONS

■ ChildNET

CHILDLINE came out with the 6th edition of ChildNET, which is primarily a collation of all the calls received on 1098 and the analysis of the calls for the period of Jan - Dec 2010. The ChildNET acts as the base for any further inquiry for child related problems. This national trend analysis report is extensively used by Child Rights Organisation to represent the voice of the child.

■ Hello CHILDLINE

This newsletter is a compilation of events, campaigns and rescues undertaken by CHILDLINE partner organizations. This publication allows each city to understand the work done in other cities and keep the network connected. CIF published 3 newsletters within the financial year.

■ The Everywhere Child Project- A child friendly place in every space

The objective of the study was to highlight that children have a right to all spaces. A child cannot be denied access to a space simply because a space is ill-equipped or insensitive to the protection and safety needs of a child.

This study primarily covers spaces that children access including public common spaces, public service spaces, statutory bodies for child protection, public institutions for Child Protection and institutional care services. An inquiry was conducted among duty bearers, civil society members and children through interviews, focus group discussions and consultative meets. Further, the study consulted widely with civil society groups and experts, and developed a set of standards for Child Protection across the spaces that were studied.

We invested more time in getting to know our friends, built stronger relations with our committed donors and increased our reach to those who we knew wanted to lend a helping hand.

Thank you for your unflinching support.

You help us stand proud.

CORPORATE SOCIAL RESPONSIBILITY

■ Aditya Birla Group

The ABG Group donated a sum of Rs. 9, 60,000 towards medical aid for 6 children suffering from life-threatening illnesses. These children underwent major surgeries and are living a happy and healthy life today.

■ Hanmer MS&L

■ Salt Brand Solutions

This Ad Agency undertook the task of putting forth an idea to increase fund raising and visibility for CHILDLINE at the most crucial juncture of our expansion. They created and implemented the idea of a Rescue Van which would serve as a supplementary tool to the 1098 service. This van is currently operational in Mumbai, Delhi & Kolkata.

•• SALT BRAND SOLUTIONS PVT. LTD.

■ HSBC

With an increasing trend of substance abuse amongst children, CHILDLINE & HSBC have undertaken an initiative of providing 'life skills training amongst street children primarily to address the problem of inhalant abuse.' The reach of this project extends to 10 cities in India with a focus on 3 key areas in each city. This project will work on a prevention and intervention model, facilitate awareness and linkages, devise a mechanism for sustained support, counseling and treatment and aim to rehabilitate the child. Awareness on the issue will be conducted amongst those individuals and groups who are directly or indirectly related to the issue of substance abuse amongst children such as street children, police, railway officers, shop owners, teachers parents etc.

Future First-Shelter homes

HSBC-Future First gave "Supplementary funding support" for shelter homes associated with CHILDLINE in Bhopal, New Delhi, Jaipur, Mumbai and Orissa. CHILDLINE joined hands with Future First and assisted in upgrading infrastructure, enhancing capacity and care of these shelters.

■ HPCL

With the expansion of CHILDLINE to every city/district of India, conducting quality intervention and rescue operations in the absence of sustainable funds became a great challenge.

As a complimentary tool to the 1098 service, HPCL tied up with CHILDLINE to provide a vehicle that was available to the CHILDLINE team whenever they needed to undertake a rescue, whenever a child needed to be rushed to the hospital or if outreach programmes needed to be conducted in public spaces.

Currently, 3 vans are running in Mumbai, Delhi and Kolkata respectively. As this project has been running successfully for the last 6 months, we aim to provide a rescue van in those areas where public transport is unavailable to our team, where rescue operations are not up to the mark and where the awareness of 1098 remains low.

■ L&T medical camps

CHILDLINE tied up with L&T to provide free medical treatment for children in communities across the city. 12 medical camps have been slated for the year, accounting for 1 camp a month. The essence of the medical camp lies in the fact that the same children who were treated by the doctor will meet the doctor once again after a gap of 3 months. The objective remains clear-free medical service for children who don't have access to quality care and a well designed programme to ensure the child is given the best possible treatment over a sustained period of time. The camp saw a huge turnout and resulted in a more educated community, increasing their knowledge on basic health, sanitation and medical issues.

■ HDFC Bank Ltd

The 'Power of Banking' is a unique initiative jointly undertaken by HDFC Bank Ltd and CHILDLINE India Foundation. The prime objective of this programme is to take basic financial knowledge to community/street children. The module includes basics on good and bad spending habits, financial knowledge and banking. Piloted in Mumbai, this initiative will be taken to other cities in the next few years.

Children from the Dahisar community in Mumbai listen on as HDFC Bank Ltd. employees talk on the 'Power of Banking'.

Association with schools

The school mobilization program became a stable activity during the year 2011-12. The thrust was to raise awareness on Child Rights and the availability of services run by CHILDLINE to ensure those rights. It involved interactions with the key stakeholders in the school space – principals, teachers, parents and students. A combination of programs such as talks, audio-visual presentations etc, were used to engage the participants.

About 800 schools in 25 cities were tapped involving about 1 lakh students.

Telemarketing

Telemarketing served as a powerful tool to reach out to the general public and to introduce the cause of CHILDLINE. About 1.8 million individuals were contacted during the year, in Mumbai, Ahmedabad, Delhi and Bangalore. Apart from raising much required resources, this has also helped to foster the spirit of Child Rights extensively.

CHILDLINE SE DOSTI

November 8-14th, 2011

CHILDLINE Se Dosti was conceptualized back in 2007.

Friendship aka 'dosti' is a simple yet far reaching concept. The idea of a CHILDLINE Dost is like a close, real relationship, one that could be nurtured over years, best epitomized by Jai - Veeru from Sholay.

Enthusiastic and determined college students volunteered by standing in public spaces, talking about 1098 and urging people to donate towards CHILDLINE. We managed to rope in McDonalds, Blue Foods, Noodle Bar, Bowling Co, F 123, SweetWorld, Shine Salon, Keya Clinic and Gilli and help market this concept more vigorously.

What began as a marketing attempt/donation drive with the distribution of Dosti coupons is now a nation-wide awareness and fund-raising campaign across India.

Cut to June 2010

Childline Se Dosti was a distant, one-off initiative present in our subconscious.

CHILDLINE was undergoing one of its largest expansions in the history of the organisation. The tempo was rising whilst the teams were burning the midnight oil to meet deadlines set by the Government.

160 cities, 25 states, but a severe lack of awareness.

The need of the hour was not a marketing tactic, a fund-raising dinner, a fresh branding strategy, a new corporate tie-up or a path-breaking advertising campaign... It was the creation of a unique property for CHILDLINE that would be etched in the minds of people for years to come.

Thus began the brainstorming, brawls, bickering, banter and bedlam.

What was the real objective of this campaign? What message would it convey? What events would be held? Which cities would participate? What would be the title of this movement? Where were we to begin?

We began digging up archives, rummaging through outmoded and recent campaigns, some that were fruitful and some that never made it to the top rung. We tried our hand at new campaign ideas, out-of-the-box angles at old campaigns but nothing seemed right.

After weeks of exploration, we boiled our options down to the 'Help me fly' and 'Childline Se Dosti' campaign. They seemed to heave some emotional chords that the rest didn't. They had been successful in their own time, but the question was... Were any of them still relevant today?

A lot of brouhaha, exchange of emails and brooding landed us the 'CHILDLINE Se Dosti' campaign theme with the objective of generating a million dosts for CHILDLINE. It had the pulse, the tick and the momentum that we were furiously chasing after. Amen to that.

People in Alligarh, Uttar Pradesh, come to the CHILDLINE stall to take the Dosti oath.

Cut to 2011

CHILDLINE Se Dosti became an established nation-wide awareness campaign making ordinary citizens stakeholders in Child Protection. The aim was to involve the community by understanding and recognising Child Protection and being pro-active in reducing vulnerability of children to risks.

The issue of Child Protection began to resonate with people across all walks of life.

The community was invited to take a pledge and commit themselves to being a CHILDLINE Dost and participate in a multitude of exciting events happening across the country, on the eve of Children's Day.

From rickshaw and bus outreach programmes, signature campaigns, walkathons, rallies, tying of the Sureksha Bandhen to police personnel to nukkad natak, each city/district in India was bustling with events and activities during the week long dosti celebrations.

CHILDLINE India Foundation

CHILDLINE INDIA FOUNDATION

The CHILDLINE service, which has been developed and managed by CHILDLINE India Foundation (CIF), is a 24x7, emergency, free phone outreach service linking children in need of help and protection to organisations run by government departments as well as those run by civil society agencies. Children or concerned adults dial the number 1098 and are connected to the CHILDLINE service in their city.

Street children and youth living alone on urban streets, child labourers especially in the unorganized sector, children who have been abused, child victims of the flesh trade, differently-abled children, child addicts, children in conflict with the law, children in institutions, mentally ill children, children affected by HIV/AIDS or other long term diseases, children affected by conflicts and disasters, child political refugees, children whose families are in crisis, gender linked abortion of female foetuses, undernourished children, illiterate children are among the host of issues plaguing children in India.

At present, CHILDLINE operates in **204** cities and/towns across the country and services over two million calls a year.

CHILDLINE is India's first national level response to the ratification of the United Nations Convention on the Rights of the Child (CRC). Additionally, the CHILDLINE 1098 service receives special mention in the Juvenile Justice (Care and Protection) Act 2000- the Government has requested CHILDLINE to act as a catalyst in bringing together State agencies and voluntary agencies at the local level to ensure implementation of the Act.

CIF recognised quite early on that Child Protection issues which was not recognised in India beyond sweeping legislations. Consequently CIF was invited to make submissions for the 10th Plan. In order to put in place a process framework for implementation of Child Protection, CHILDLINE India Foundation joined hands with The National Institute of Social Defence and developed a program: 'National Initiative for Child Protection (NICP)'. This has subsequently become the framework for the MWCD initiated Integrated Child Protection Scheme program (ICPS).

Objectives of CHILDLINE India

The CHILDLINE Model

CHILDLINE is a unique partnership between the Government of India, Department of Telecommunications, Voluntary agencies, Academic Institutes, the corporate sector, children and the community:

THE PARTNERSHIP MODEL OF CHILDLINE INDIA

CHILDLINE is the crucial link between children in need of care and protection and the available services. For children with different needs, who call in anytime, anywhere, and for anything, we act as a one-point contact, which facilitates instant access to support, advice, active intervention or just a listening ear. We connect children in emergency on one end of the phone line to a well-connected network of services- Services that already exist. No new shelter, no new hospital, no new infrastructure is built. We at CHILDLINE believe that for a helpline to be successful and effective in reaching out to the millions of children deprived of their childhood, we need to work in a partnership framework. A framework that recognizes that:

- A helpline cannot operate in isolation
- All partners involved in the helpline share a reciprocal relationship
- Each partner has clear and definite roles in the partnership model. This leads to a feeling of joint ownership towards the model
- All partners share the vision, mission and the success of the model

CHILDLINE Operational Structures and Processes

NODAL ORGANISATION

The nodal organisation is usually an academic institute or Non Government Organisation with networking, training, coordination and research skills. A city coordinator is supervised by the Nodal Director who ensures creation of a protective environment for children at the city level.

EMERGENCY INTERVENTION CENTRES

The Emergency Intervention Centres are voluntary agencies, which shall function as the call centres for CHILDLINE. They work 24hours and respond to calls that are received on the 1098 CHILDLINE service. The centre coordinator manages a team that intervenes in emergency cases and conducts outreach and networking activities.

CHILDLINE SUPPORT AGENCIES/ SUB-CENTRES

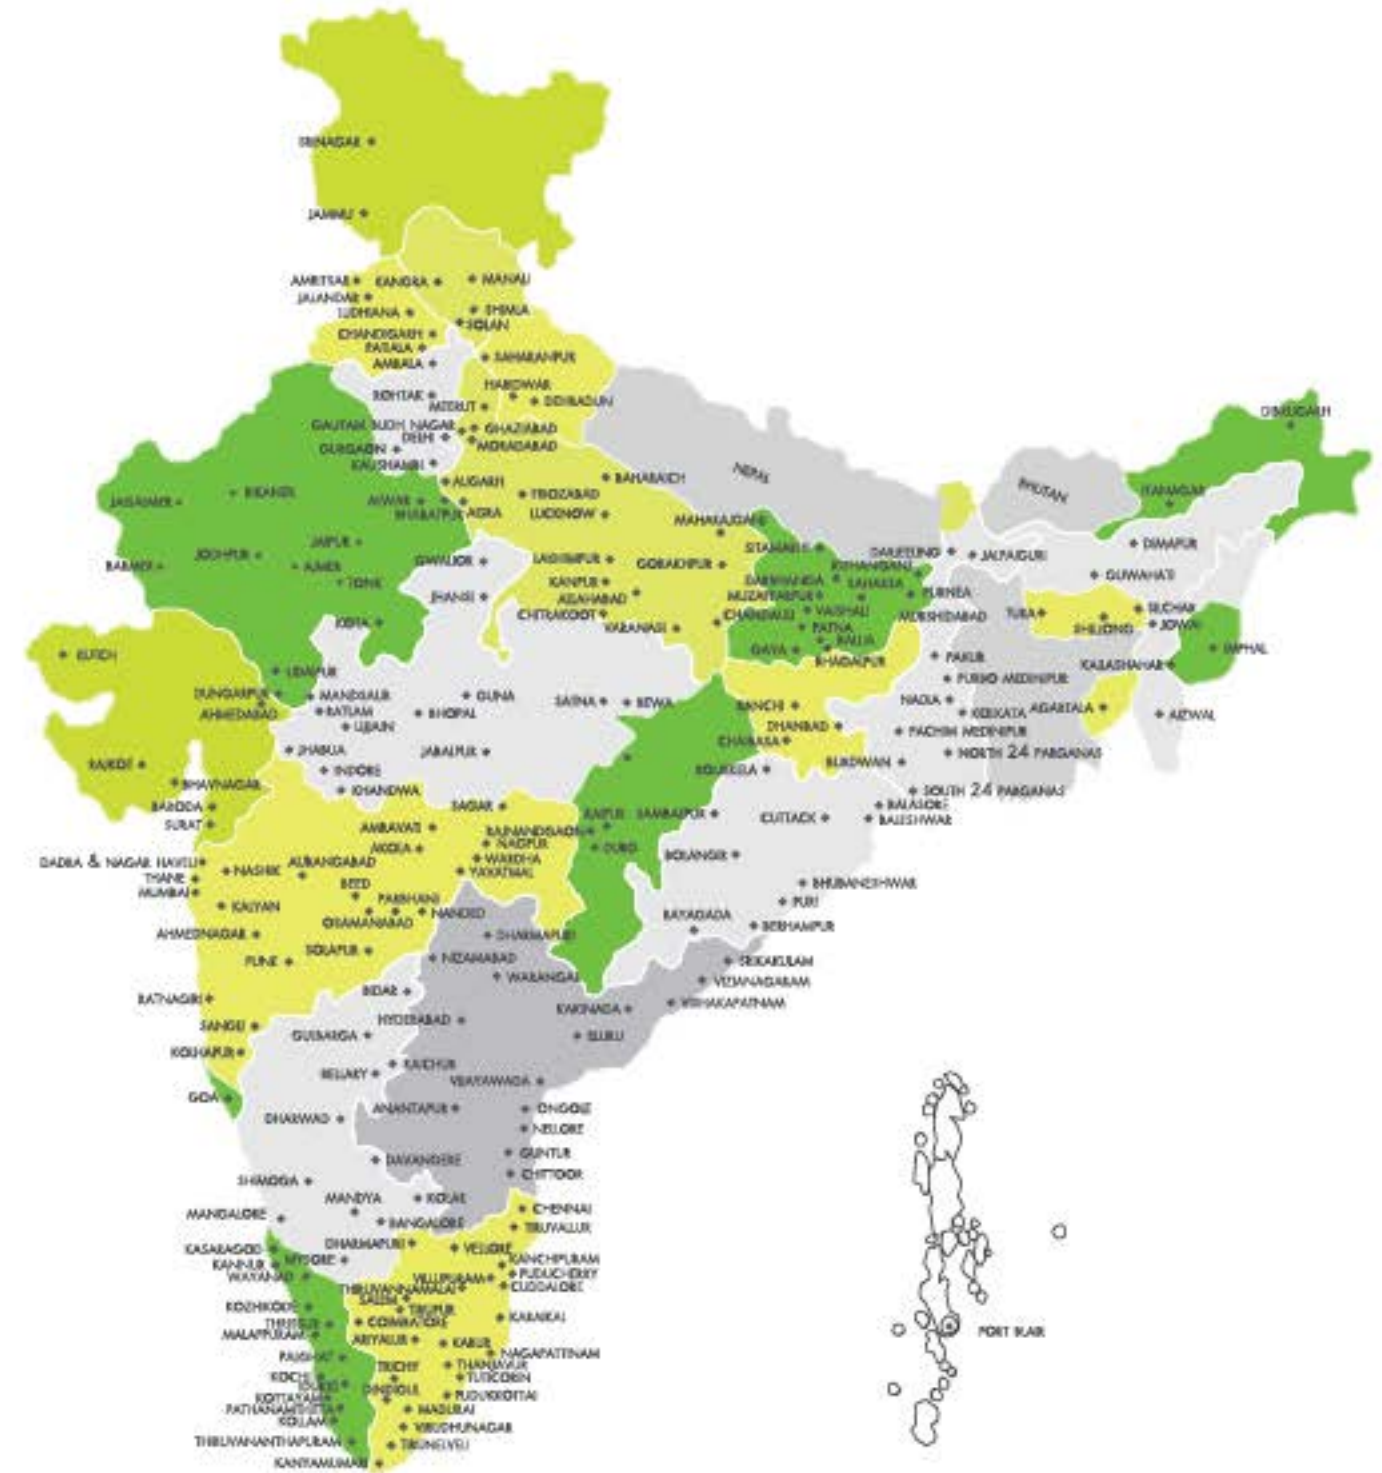

CHILDLINE Collaborative Partner is also called the Collaborative Centre, there will be, approximately, 5 to 7 Sub-Centres in districts (and 1-3 support agencies in cities) as per the specific need in the district/city, according to the nature of the population and geographical spread in the district. A team of three CHILDLINE staff members assisted by two volunteers from the Mahila Samakhya members, anganwadi workers, teachers, and woman members of the panchayat assist the Sub-Centre staff at the taluka and village levels. They will follow up on children who have returned to the village and provide information when children are being recruited and help the local community to prevent child labour.
